ADDITIONAL EXPERIENCE

Voice Reels, Sebastian Gutierrez Sound Design

June 2026 - Present

Record and produce professional voice reels for actors and performers. Engineer recording sessions and mix/process dialogue to deliver clear vocals. Edit and assemble voice recordings, select strongest takes, and refine the pacing and transitions. Mix and process dialogue, and incorporate music, sound effects, and ambiance to enhance performance. Review client feedback and make revisions balancing creative preferences with professional audio standards.

Sound Design Consultant/Designer, Statespace Labs Inc.

Dec. 2022 - March 2023

Created original sound design for visual assets across YouTube videos and live streamed content. Collaborated with team members and supervisors to develop audio that supported creative direction and storytelling. Communicated effectively and efficiently across the production process, incorporated feedback and revisions, and delivered polished audio on the desired schedule.
